CONDITIONS OF SALE

COMMISSION

1. A buyer's commission of 10% of the hammer (selling) price will be added, and becomes part of the total purchase price to be paid by the buyer.

BIDDING

2. All Bids are per lot, as numbered herein. We reserve the right to withdraw any lot prior to the sale, to divide a lot or to group two or more lots.
3. The highest bidder shall prevail. It is the sole right of the Auctioneer to settle any dispute between bidders, to offer for resale any lot under question and to regulate the bidding. The auctioneer also reserves the right to refuse any bid he believes not to have been made in good faith.
4. Persons unable to attend the sale may bid via the enclosed bid sheet or by telephone by using our WATS 800-221-7276. New York State residents may call 212-751-1900. We will be pleased to assist you in bidding, answer any questions regarding a lot, or give you more information on any lot(s).
5. May we suggest bids that make sense. Offering \$100 for a \$1000 coin only wastes your time and ours. While it occasionally happens that a bargain can be obtained at auction, most coins will sell for a price fairly close to their actual value. Please keep this in mind when bidding by mail. And, regardless of "lucky numbers" we would appreciate it if bids are not offered in odd amounts. Such bids will be automatically reduced to the lowest whole number. (\$102.34 becomes \$100.00).
6. HRN as cataloguer and auctioneer reserves the right to offer at this sale its own material and also may bid on any lot for its own account. Consignors also have the right to bid on their own material.

PAYMENT

7. Payment shall be in U.S. Funds. All bidders, floor or via mail or telephone shall pay for their lots in advance of delivery unless prior arrangements have been made. Successful mail bidders shall be notified of lots won and must remit prior to lots being shipped. A charge for postage, insurance and handling shall be added, as well as appropriate New York State Sales Tax where applicable. Exemption Certificates must be on file with us prior to the sale. Receipt from a reputable carrier shall constitute delivery by us.
8. Title shall not pass until payment in full for won lots has been received. A late charge of 1½% per month shall be imposed on overdue payments.
9. Placing of a bid shall constitute an agreement between buyer and seller and acceptance of the foregoing terms.

GUARANTEES

10. All items offered in this catalogue are guaranteed as to date, mintmark, metal, specialized catalogue number (such as Sheldon) attribution and of course, authenticity. Lots on which description is incorrect according to the above, are returnable with advance permission from HRN. Disputed lots must be returned intact in their original containers, within 10 days of receipt. Lots are not returnable for any reason (other than a question of authenticity) if:
 - a) You are a floor bidder, even if you did not view the lot.
 - b) You viewed the lot prior to the sale.
 - c) The lot contains more than one coin.
 - d) A photograph of the lot in question appears in the catalogue and clearly shows any defect not noted in description.
 - e) You cannot afford the lot. Bids placed in an auction are legally binding. Please check your finances prior to bidding.
 - f) You simply do not like the coin even though the description is correct. An auction sale is NOT an approval sale and is NOT conditional.
 - g) More than thirty days has elapsed since the day of the sale.

DESCRIPTION

11. The grading of any coin is a matter of interpretation of the features of that coin as seen by the grader. Grading is NOT an exact science but an art. It is a blending of what the grader sees added to his knowledge of coins in general and of the specific characteristics of the coin in question, plus his experience and awareness of current grading practices as well as market conditions.
The grades represented herein are a reflection of our experience and expertise in the art (not science) of grading and our awareness of the numismatic field at this particular time. They reveal our best opinion of the state of preservation of the item, and are in accordance with most presently used guides on grading as we interpret them. No warranty, expressed or implied, is extended to such opinions and interpretations. Finally, please be aware of the price paid for a coin. In many cases a lot may not meet your expectations, but you have purchased it for a substantially reduced price. Please keep this in mind when deciding if a lot is satisfactory.

FLYING EAGLE CENTS

79. **1856** Technically a **Pattern**, this coin was not an authorized mint issue, but strong collector demand has qualified it as part of the Flying Eagle Series. With an estimated mintage of 1,000 pieces, this example is a **Choice Extra Fine** with a nick in the slant of the 'N' of one, being the most distinguishing characteristic. A very **pleasing example** of this sought after rarity.

80. **1857** Lightly toned mint state example with small stain under 'E' of 'AMERICA'. Lustrous and well struck for the type.

81. **1858 Large Letters Uncirculated**, "UNITED" weakly struck, small planchet flaw over first "S" in "STATES," doubled outline behind Eagles wing and above tail feather, and crumbling denticles above "America", the reverse is extremely well struck. An interesting and attractive coin.
82. Three Flying Eagle Cents Extraordinary appearance but on closer inspection we feel that all three pieces have been "improved". 1857, no wear present, and 1858 both varieties. Large letters looks like a Proof and has nice rainbow tone.
83. Group of Circulated Flying Eagle Cents All 1858 but one. Cull to Fine, Average grade, Very Good. 21 pieces total.

INDIAN HEAD CENTS

BRONZE TYPE

87. 1864 First year of the bronze issue and a beautiful BU 63, more than 50% red with few apparent defects.

88. 1864 Another, deeper in color and of nicer quality, deep red brown and technically a Gem.

89. 1864 with 'L' No apparent wear but color does not look quite original. Golden red tone with a small nick between first two feathers.
90. 1864 "L" VF 20 cleaned, and 1865 AU with much original color. Two coins.
91. 1865, 1866 and 1868. All at least Almost Uncirculated but tampered with to some degree.

94. 1869 Over 8 EF 40.
95. 1871 through 1874. Four better date Indian Cents in nice condition. 1871 and 1872 EF and VF respectively but most likely cleaned. 1873 has no wear but little lustre, grainy & toning. Finally 1874 Brilliant Uncirculated with 60% red but quite spotty.
96. 1874 and 1875 Uncirculated but once cleaned and beginning to retone, and 1876 better than MS 60 with a spot on "O" of "ONE" and left wreath.

97. **1877 Key Date** in Extra Fine, cleaned some time ago and toning orange red. Always in demand.
98. 1880 An unusual example with surfaces reminiscent of a sandblast Proof. Strong letter doubling and reverse clash marks and only minute surface defects. A curious coin in **Choice Mint State**.
99. 1899 A common year in beautiful condition. Deep red color with a few tiny carbon spots mostly on the reverse. Definitely Choice BU.
100. 1908-S Almost Uncirculated, unnatural color; and 1909-S possibly Uncirculated but cleaned.

101. Five better Indian Cents 1865 AU once cleaned, 1879 Brown Slider, 1883 better than MS 60, 1894 MS 60 40% red, and 1908 MS 60. Attractive coins.
102. Four higher grade pieces 1881 BU 60+, 1884 closer to BU 63, 1885 and 1888, gradewise between the first two.
103. Four Uncirculated Indian Cents 1881 BU 60+, 1887 approaching 63, 1888 a shade better, and finally 1889 lustrous BU 60+.
104. Four Uncirculated Indian Cents 1890, 1891, 1892 and 1894. All MS 60+ or better.

108. Group of Indian Cents Twenty-five coins of various dates from 1878 to 1909. All Extra Fine or better and some close to mint state. A few pieces exhibit signs of old cleaning. A good starter set.
109. Large lot of Circulated Indian Cents 490 coins of which 51 pieces are of the copper-nickel variety. Grading ranges from AG to Extra Fine, averaging Very Fine. Included is one Flying Eagle.

LINCOLN CENTS

110. **1909S VDB** The most popular date of the series. Glossy golden example with strong mint lustre. Faint hairlines from early cleaning but exhibits no actual wear.
111. Four Choice Philadelphia pieces 1909 VDB & 1910 full red BU 63, 1911 Gem Red MS 65 and 1912 BU 60+.
112. Three better date Lincolns 1909-S Choice AU, once cleaned, 1915 toned BU 63 and 1913S, better than MS 60, dark reverse.

113. **1914D** A difficult coin to find in the higher grades. This original example **surpasses MS-60** but does have light carbon flecks visible under magnification. One of the nicer pieces in this Lincoln Collection.
114. 1922 Plain Another Key date, well struck reverse variety. Fine obverse, EF reverse, possibly cleaned.
115. Ten early mint-marked Lincoln Cents All grading from Very Fine to Extra Fine. Some possibly better. Included are 1910S, '11D, '11S, '12D, '12S, '13D, '13S, '14S, '15S, and '22D. 2 coins brightly cleaned, the remainder brown and attractive.

116. 1955 Doubled die Extra Fine to AU, tiny reverse edge nick at 9 o'clock.
117. Complete Lincoln Cent Collection 1909-1940 in "Library of Coins" album. Complete with all dates and mint marks. Uncirculated from 1934 on, some Choice, 1909S VDB and 1914D in Fine with some reverse scratches. 1922 Plain questionable, no guarantee of authenticity. All other pieces well matched and not too heavily circulated.
118. Circulated Lincoln Cent Collection 1909-1940 inclusive in 'Whitman' album. Missing 1922 Plain. 1909S VDB, Very Good with reverse porosity. Not as nice as the previous group. Average grade, Fine or Better.
119. Six assorted Lincoln Cent Albums A few surprises within. Two sets 1941-1961 mostly BU, an incomplete set from 1909-1940 missing most of the early dates but 1934-1940 All Choice BU, an additional 1941-61 set, all high grade but missing 1949S. Also a small book with a few circulated early mint marked pieces and finally an old Wayne Raymond holder containing a collection of Error Coins most notably some off-centers from the 1940s.

TWO CENT PIECES

120. 1864 Large Motto Variety Choice BU with almost 50% of the original red remaining. A nice coin for type.
121. 1864 Large Motto, another example with more red and a superior strike, quite eye-catching.
122. 1864 Small Motto Toned Very Fine.
123. 1870 Extra Fine and 1871 Technically Uncirculated but unfortunately both pieces polished.

124. 1872 Beautiful Proof example of this Key piece. Total mintage only 65,000. One tiny green spot on rim at 8 o'clock, otherwise quite Choice. Attractive bronze gold appearance, helps make this specimen exceedingly desirable.

125. 1873 The last year and the rarest date of the series. This example, struck only in Proof, is the closed "3" variety. Most of the original mint red remains, though some carbon flecks are noticeable under magnification, an important numismatic item of Choice quality.

126. Group of Circulated Two Cent pieces Various dates and grades comprised of 7 x AG, 8 x Good, 6 x VG, 4 x Fine, and 3 x VF. 28 coins in all.

THREE CENT NICKELS

127. 1869 Choice frosty Proof with some tiny lintmarks on portrait. Among the lower Proof mintages (600+).

128. 1871 Another Choice Proof with some wire edge visible, some microscopic specks present.
129. 1874 Dirty but lustrous BU example. Mint flaw after 'AMERICA'. A Gem might appear with proper attention!
130. 1875 Choice BU and Proof-like.
131. 1876 Choice Proof with minor mint imperfections. (Lintmarks, etc.).

132. 1877 A **Gorgeous example** of the rarest date of the series. Lovely pastel toning enhances this little **Gem**. Imperfections, if any, are only noticeable under very strong magnification. **Only 510 pieces** mint in Proof and none struck for general circulation.

133. 1878 The **Second Rarest Date (2,350 Minted)** and also only struck in **Proof**. Beautiful **rainbow** colors on obverse and despite three light reverse toning spots, still a stunning example of this underrated type.

134. **1879 Gem Proof** example of this low mintage date. Brilliant, with no defects worthy of note.

135. **1880 A Frosty Proof** with a somewhat cameo appearance. Some darkening of the second numeral '8', nevertheless a **Choice Specimen**.

136. **1882 A Dazzling Proof** considered to be a better date with a mintage of 25,300 pieces. Slight reverse streaking but a nicer example would be hard to imagine.

137. **1883** Another sparkling Proof low mintage piece. Minor reverse specks and extremely brilliant surfaces make this a desirable specimen.

138. **1884** Extremely scarce as a business strike. Approaches **Gem Condition**. One tiny nick behind the eye keeps this piece from near perfection.

139. **1885 Choice Proof** with a total mintage of 3,790 with only 1,000 additionally struck for circulation. Some light staining but quite attractive.

140. **1887** Beautiful BU example of this low mintage date (7,961 struck), a tiny nick in center numeral being the only defect. Obverse denticles missing from 8 to 2 o'clock probably due to thin planchet or lack of striking pressure.

141. **1887 over 6** Overdate clearly evident on this lovely Proof Specimen. Light yellow green toning and few imperfections qualify this as **Choice**.

142. **1888** A Gem BU example missing from many collections.

143. **1889** Final Year of the series and a blazing Proof. Some light reverse stains but still a choice specimen.
144. Assorted lot of 3c pieces - 28 pieces in nickel, various dates average Fine to Very Fine. Silver comprised of: '51-O (VF-EF cleaned), '52 & '53 (VG), '58 (VF), and '59, '60 and '61 (EF) and four more low grade. Thirty-nine pieces total.

SHIELD NICKELS

145. 1866 and 1867 both with rays in AU condition. '67 has numerous die cracks and some reverse scratches.

146. 1868 Attractive BU 63 with interesting obverse die cracks.

147. 1869 Slider Uncirculated attractively toned plus 1868, 1872 and 1873 in Extra Fine. 4 coins.
148. 1875 Proof-like and Almost Uncirculated. Breen states Proofs are usually below average quality, so close inspection is advised.

149. 1876 Proof example with light hairlines but much eye appeal.

150. 1878 Proof only year with a mintage of 2,350 making it the **second rarest date** in the series. Light reverse hairlines and a few minor spots keep it from Choice.

151. 1881 Lustrous Proof with minor spotting and light reverse hairlines. Scarce in any grade.

152. 1882 Sparkling Proof with two tiny obverse spots at 1 and 6 o'clock. Otherwise quite Choice.

153. 1883 Typical BU, somewhat better than MS 60. Quite lustrous with some light staining.

In addition a Circulated set of Mercury Dimes lacking 1916-D, 42 over 41 and four other common coins, some later coins are Uncirculated. A lot for the Dime lover.

SALE OF THE HOLLAR COIN COLLECTION WILL RESUME WITH TWENTY CENT PIECES. THE FOLLOWING ARE SOME CHOICE LOTS FROM OTHER CONSIGNORS.

211. **Set of Franklin Half Dollars** 1948-63. All dates and mintmarks. All coins BU-60 or better. As usual with these sets, the quality improves as the coins get younger!
212. Another, identical set.

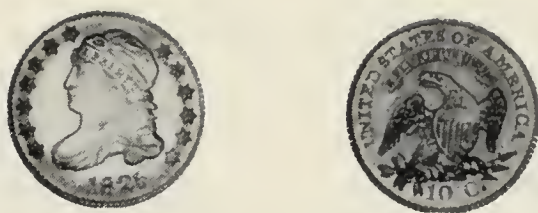

213. 1853 Cent, N-19. The Re-Cut Three. Lovely example of this popular variety. Dusky red with some of the typical spotting one finds on these, better than a 60.

214. 1858 FE Cent. Somewhat dusky, a few faint spots, nice type piece, at least BU-60.
215. 1859 CN Cent. Satiny lustrous in a subdued fashion, we see it as BU-63.

216. 1863 CN Cent. Rosy toning, quite attractive, should rate at least BU-63.

217. 1825 Dime. Proof-like surfaces, a very attractive piece with peripheral toning. Reverse a bit weakly struck at eagles wing. Just about MS-63.

218. 1835 Dime. Really exhibits virtually no wear but cleaned at one time. Now should rate AU+.
219. 1875-S 20c. Nice AU, perhaps a bit better.

226. 1872-S Seated Dollar. Another rarity with only 9,000 minted. This is a strong Extra Fine, with no detracting marks, missing from most sets.
227. 1884-S A scarce Morgan Dollar. This offering falls just short of BU-60.

228. **1892 Morgan Dollar Proof** Deeply toned quite attractively on both Obv. and Rev., some hairlining as is normal on older proofs, nice frost, much better than 60. **1,245** minted.

244. **Hawaiian Commemorative Half 1928**, with recent ANACS authentication certificate. Nice AU.

246. 1917 Type I Quarter. Beautiful satiny virtually full-head piece, very close to MS-65, only an extremely light pin scratch, lower left obv. device.
247. \$2.50 Indian 1914 Second toughest date. Nice coin, a bit better than BU-60.
248. 1857 Cent Small date, N-4, nice BU with much red gold showing, very attractive.
249. 1862 CN Indian Cent Toning dark with some brightness shining through, a few trivial spots, and a bit weakly struck, a typical BU-60.
250. 1883 Shield Nickel Nice BU-63, prominent die break right obv., beginning to tone, last year of issue.

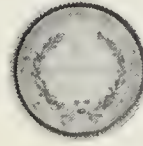

251. 1942 Mercury Dime Proof Dusky light toning and a couple of spots, else nice.

252. **1907-O Barber Half Dollar** Nice toning, a few small marks, still a nice BU-63 with typical strike for mint.

253. **1919 Walking Liberty Half** Nicely struck, slight toning, BU-62.
 254. **1890-O Morgan Dollar** Light peripheral toning, just about makes BU-63.

255. **1853 \$1 Gold Type I** Attractive BU, better than 60, typical strike.
 256. **1926 \$2½ Indian** Typical BU-60.

257. **1901-S \$5 Liberty** A bit nicer than BU-60, reverse edge rough at bevel.

258. **1877-S Seated Liberty Dime** Deep blue and red rainbow toning, a lovely BU-65 example, perfect for any type set.

259. **1894 Barber Quarter Proof.** Delicately toned, really pretty, easily a 65.

267. **1887 Liberty Nickel Proof** Light toning with a couple of tiny spots, too trivial to prevent a 65 rating.

268. 1942P Jefferson Nickel Proof, Type II, lovely 65.

269. 1936-D Mercury Dime Full split bands, sharp and shiny BU-65.

270. **1925 Standing Liberty Quarter** Just about full head with nice lustre, clearly BU-65.

271. 1938 Washington Quarter Lovely BU-65.

272. 1939-S Washington Quarter BU-65, nicely struck for the date and mint.

- 280. **1882-O** Well-struck for this issue, nice full feathers, just starting to tone, clear BU-65, rare thus.

- 281. **1883-O** Scarce in high grade, BU-65, duskily-toned obverse, reverse shinier.
- 282. **1883** Satiny BU-64, one field scratch behind the head preventing a better rating, still lovely, and **1884-O**, BU-63.
- 283. **1885** A common coin in uncommon condition. Very pretty, peripherally-toned BU-65.
- 284. **1886** Bright and flashy, two pieces both BU-64, plus **1887**, also BU-64, and **1923**, BU-63, deeply toned.

- 286. **\$20 1927 St. Gaudens** BU-60+.

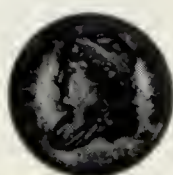

FROM ANOTHER CONSIGNOR

- 287. \$1 Gold 1854 Pleasant little classic Choice BU, very attractive.
- 288. \$1 Gold 1856 Type III, MS-60.
- 289. 2¢ 1865 Choice BU, at least a third red, very nice coin.
- 290. 3¢ Silver 1857 Toned BU-60 or a bit better. Slight die bulge, but nice.

- 291. 3¢ Silver 1862 Reddish tone, BU-63 of nice appearance.
- 292. Bust Half Dime 1829 Duskily toned, a pretty piece better than 60, not far from a 63.

- 293. Another, **1830** Dark toning with a hint of blue and rose showing through, lovely piece, **BU-64.**
- 294. Half-Dime 1857 Seated Liberty Deeply toned, BU-63, slightest hint of friction on the knee, barely noticeable.
- 295. Half-Dime 1868-S from the same set. Equally dark-toned but with red showing through. Better than BU-60.
- 296. Half-Dime 1869-S Somewhat better date, dark uneven toning but better than BU-60.
- 297. Half-Dime 1871 PROOF Mottled toning, a light line bisects the coin, several others visible under the glass, obverse, else a 60+.
- 298. Half-Dime 1872 Dark toned as all the others, BU-60+.
- 299. Buffalo Nickel 1913-S Type I, typical weak strike otherwise BU-63+.
- 300. Another, as above but with a fine dusting of specks on both sides.
- 301. Nickel 1925 At least MS-63, typically weak strike.
- 302. Seated Liberty Dime 1861. Nice rainbow-toning over bright surfaces. BU-60.
- 303. Another, 1871 Deep rainbow-toning, nice looking, BU-60.

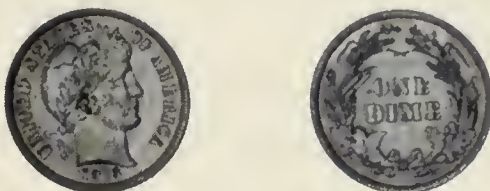

- 304. 1876 Seated Dime Nicely toned coin which is close to, if not actually, BU-63.

305. 1884 Seated Dime BU-60+ Just a little rub on high obv. points prevents a better grade. Delicate toning.

306. Barber Dime 1896-O. Bright, streakily toned, at least BU-63. A tough date in any grade.

307. Barber Dime 1913 A typical BU-63, toned and not too lustrous.
308. 1914 Barber Dime Quite toned, some light hairlining beneath, but better than MS-60.
309. 1940 Mercury Dime Full split bands, bright and shiny and just misses 65 grading.

310. 1829 Bust Half-Dollar, O-103. Nice bluish toning, BU-60, perhaps a shade better.
311. 1936 Walking Liberty Half Typical strike, a few tiny marks on knee and skirt, but overall should grade 63+.
312. 1939 Walker Quite nicely toned, with minimal marks, but not in BU-65 class. Call it BU-64.
313. 1926 Sesquicentennial Half-Dollar Somewhat spottily toned but a nice coin beneath that seems to be in the Choice BU class.

314. Lafayette Dollar 1900 Toned and nice looking, could grade a bit better than a BU-60.

SILVER DOLLARS

- 315. 1885 and two 1886, one with lovely toning, nice lot, all BU-63.
- 316. 1886-0 Tough date. Nice BU-60.
- 317. Another, a little nicer but with a mark on chin.
- 318. 1887/6 and 1887/6-0. Two nice BU-60+ pieces which are a bit elusive when you go looking for them! The former piece is semi-proof-like.
- 319. 1896-0 Darkly toned and BU-60 or even a bit nicer under the color. Semi-key date.
- 320. 1900-0 Better than BU-63, a similar 1902, and another 1902 just BU-60. Three piece lot.
- 321. 1903 Toned P/L, BU-60 but looks better, plus 1878, 7 feathers, same.
- 322. 1904 Pair of Choice BU coins, not easy to find thus.
- 323. 1921 P/L toned and 1921-D, also toned, both BU-60+.

PEACE DOLLARS

- 324. 1921 Key date, slightly better than choice unc. toned, usual strike.
- 325. 1922-S Lovely toned pair. One a bit nicer than the other, but both BU-63.
- 326. 1924 and 1925, two of each and all BU-63, various tonings, all attractive.
- 327. 1934-D Nice piece, semi-key and a bit better than BU-60.
- 328. 1935 Last year. Nice toning, a few trivial marks, and a right field scratch, some would still call 63.

FROM ANOTHER CONSIGNOR

- 329. **1794 Cent S-31**, The "2nd Marred Field." **Beautiful deep chocolate brown** showing all the characteristics of this piece. If not truly Uncirculated, it is so close that only the deepest scrutiny could reveal any flaws. Worthy of the finest collection.

- 330. Indian Cent 1902 PROOF A little dark on high points, just makes a 60.

331. 3c Nickel 1865 PROOF Lovely piece which would make 63+ save for a couple of reverse carbon spots. Flashy and nice.
332. 3c Nickel 1866 PROOF Virtually the same as the above with a spot or two on obverse rim and a few reverse freckles.

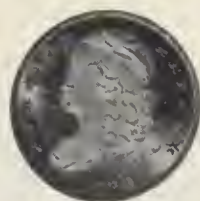

333. 3c Nickel 1878 PROOF ONLY year, with 2350 minted. This lovely bluish piece is the nicest of the three, still with a couple of reverse freckles and one tiny dot on obverse.

334. 5c Liberty 1901 PROOF Flashy and beautiful, at first glance looks like the best you ever saw. Close examination reveals the tiniest of edge imperfections, and a couple of obverse and reverse light spots. Still a stunner!

335. 5c Buffalo 1937 PROOF Only the absolutely most minor hairline across the buffalo mars this beauty—a gem in anybody's opinion.

336. Bust Dime 1830 One of the most gorgeous type pieces we have ever seen! Deeply frosted bust surrounded by a gentle rainbow, prominent die-crack 13th star to "LIBERTY". Reverse somewhat brighter as if the piece was displayed head side up. So beautiful that it is easy to call it a 65!

337. **1921-D Mercury Dime** With full split bands, truly MS 65 with only a tiny dark spot behind the neck to mar it's beauty. Scarce date coins in high grade seldom are offered.

338. **1835 PROOF Quarter** The 'Garrett' specimen. Lot 649, March 26-7, 1980. This is die B-7, and was described at that time as "Choice Brilliant Proof. Just a hint of toning. A superb, splendid example of this elusive issue." According to the description, Walter Breen was able to trace the existence of only three specimens: The Eliasberg coin, the Richard B. Windsor piece (possibly from the McCoy Collection) and one more offered by Lester Merkin in 1971. The specimen herein offered is from the Collection of W. Foster Ely, of Elyria, Ohio, one of the best known of the early US Proof coin collectors. At the sale of the Garrett coins, this piece brought 75,000.00.

339. **1917 Type I Quarter** A bright and lovely example. Full head with just a hint of contact on some of the higher spots. Satiny, easily makes 63, some would see as better.

340. **1800 Silver Dollar** The 'Garrett' specimen Lot 693, March 27-29 1980. Described there as "Choice AU-55 with many claims to full Uncirculated status. At least equal to, or maybe finer than, many of the pieces which we have seen in the past." We heartily concur. Additionally, the strike is very strong, surfaces are fully frosted with a hint of very attractive toning making this scarce B-18 absolutely the finest we have ever had the privilege of offering. At the Garrett Sale, this lovely coin fetched 34,000.00.

341. **1873 Silver Dollar** Closed "3" Beautifully frosted and exhibiting many characteristics of a proof. Many of the reverse letters are doubled, the date is slightly concave, and the strike is exceptional except in the hair. The rims are flat and not wire edge. The surfaces are, if not proof, at least proof-like. An absolutely beautiful coin in exceptionally high grade. **Very Choice Uncirculated.**

342. **1880 TRADE DOLLAR** proof only year with only 1,987 pieces minted. A magnificent specimen, bright and mirrored, with a very slight haze below Liberty's upraised arm. Close examination reveals a few of the expected but trivial slide marks on both sides, but, in all a gorgeous coin worthy of any collection.

343. **1902 MORGAN DOLLAR** in PROOF. One of only 777 struck. This beautiful coin, with blinding mirrors, innocent of all but the barest hint of toning, is certain to catch any eye which beholds it! Even close examination reveals nothing to pick on. A Gem!

344. **STELLA PATTERN IN ALUMINUM 1879** The "Coiled Hair" Judd 1640, listed by him as Rarity 8, meaning only 2-3 pieces have ever been seen. Frosty and with high-lustre mirrored surfaces, a very few very minor hairlines, a most beautiful piece. Despite diligent research, we have been unable to find a record of sale at auction for this rarity. However, the same piece in copper, of which up to 12 are known, brought \$14,000 in 1981. We feel this specimen is worth upwards of \$25,000.00.

345. **\$1 GOLD PROOF 1866** A rare year with only 30 pieces recorded as made in proof. Deep mirrors and nice frosting, some hairlining and a few light slide marks, but most pleasing in appearance. Very bright and flashy, and very scarce as of the 30 recorded, only 12-15 can be traced with certainty.

- 345A. **\$2.50 INDIAN 1908 MATTE PROOF** First year of the type. A Superb example with the deep olive green color typical of the early gold mattes. Excellent strike with sharp wire edges. Reverse essentially perfect with the necessary softness in the upper wing feathers. Small line through first star left of date looks mint made, surely one of the finest of the estimated 70 to 80 specimens existing today.

- 345B. **\$3.00 GOLD 1883 PROOF** A striking example of one of the rarest coins in this series, with a total proof mint of 189 coins. It is one of only three issues with a commercial mintage of fewer than 1,000 pieces. This piece has a cameo obverse with high wire edges. Possessing the orange peel surfaces typical of this type, faint hairlines are discernible under strong magnification. Surely one of the nicer examples extant of this exceedingly rare coin.

Considering the hard useage these early gold pieces were subject to, very little evidence is apparent on this coin. Nice lustre and very appealing, a few little marks are evident if searched for, but certainly in the choice class or very close to it.

347. Modern Type Coins: Cents 1943S, 1944 both BU and 1959 nice proof, 1942P Nickel, toned, not too pretty; proof Dimes 1957, 1971 both average, Quarters 1971, 1976 Bicent. both proof; Halves all average proofs-1957, 1964, 1969, 1971, Bicentennial; Dollars 1925 BU-63; lkes in proof 1971, 1973, and Bicentennial.

A LAST-MINUTE CONSIGNMENT

- 374A. **1793 Wreath Cent** S-6, (R-4) The "Sprung Die". In point of wear, obverse makes VF, but once cleaned, and is much brighter than the reverse. Close examination reveals a myriad of tiny pitmarks, not obvious to the naked eye. Despite all of this, still a decent piece.

- 374B. **1818 N-10** Randall Hoard piece which was also once cleaned. Now toned a delicate pink, hard strike with heavy die-cracks, and very few flaws.

374C. 1851 N-15 This R-5 piece must qualify as one of the absolutely most beautiful large cents extant, and may be the best of this Newcomb variety ever to show up! Gorgeous opalescent peacock blue-green, fading into purples and reds about the bottom edges on the obverse, with a red, blue, purple mixed reverse. One to rave about, cannot imagine one nicer!

- 374D. 2c 1864 Large Motto Attractive BU 63 with much original red remaining. Some small cuds along obverse edge.
- 374E. 3c Silver 1857 Type II AU 50 with slight die bulge at top of coin. Weakly struck shield but much original lustre. Deeply toned.
- 374F. Half Dime 1854 Arrows Flashy BU deep gray magenta color. Some slide marks but well struck.
- 374G. 25c 1806/5 Draped Bust Type approaches Fine, but has a small test cut at 10 o'clock. Peripheral rainbow toning.

- 374H. 50c 1795 Flowing Hair Half Dollar O-129 (R-4), the "S" over "D" variety. First type of American halves. This example grades Fine obverse, VG reverse. Two small obverse pinhole digs at left foot of 'R' and behind top lock, but clean rims and pleasing appearance.
- 374J. 50c 1807 Draped Bust Half Dollar O-101 (R-3) Very Fine, with obverse adjustment marks. Minor edge flatness above second 'T' of 'STATES'.

- 374K. **1795 Flowing Hair Dollar B-1** A Lovely example of our first Silver Dollar. Overall condition **Choice Fine** but shows signs of early cleaning. Beautifully toned with no defects except for a few tiny pinhole digs often seen on coins of this type.

- 374L. **1798 Draped Bust Dollar B-27** A Wonderful example of early American coin. Beautiful color and much original lustre. Unusual doubling of profile, and eye not mentioned in Bolender. Qualifies as **Almost Uncirculated** due to good strike and overall aesthetics.

WE NOW RESUME SALE OF THE HOLLAR U.S. COIN COLLECTION

TWENTY CENT PIECES

375. **1875S** Choice Extra Fine but some might call it better. Common but always in demand.

376. **1876 PROOF 60+** Quite brilliant and eye catching. Light hairlines, somewhat flawed surface under cents. Quite scarce with a total mintage under 16,000 (1,260 struck in Proof).

377. **1877** rarest date of the entire series and only struck in proof, this example, better than 60 and pleasing to behold. Light hairlines present but no major flaws. Surely, one of better examples surviving from the original mintage of just **350 pieces**. An opportunity to own a major rarity.

378. **1878** The final year of the series with just **600 pieces** struck only in **PROOF**. Some toning around the edges and the appearance of a choice coin but hairlines noticeable under close inspection. Possibly the most appealing of the proofs offered here, and an **extremely rare coin**.

379. Lot of Twenty Cent pieces - 1875 EF, 2x1875CC VG, and 2 x 1875S both low grade.

BUST HALF DOLLARS

- 427. 1803 O-101, large "3". Nice VF, with usual wear expected for the grade. Cleaned many years ago.
- 428. 1809 O-106, R-6. Hard-to-find, would make EF save for some weakness of strike in left wing.
- 429. 1811 O-109 (R-2) Strong VF, couple of scratches, very light; 1812 over 11, O-102 (R-3) VF, edge lettering over edge three places on obv.; 1813 O-110, nice VF; 1814/13 O-101 (R-2) nice VF; 1814 O-103, EF but couple of scratches near upper left stars, lost in the clash marks. Five nice coins.

- 439. 1832 O-110 Nicely toned AU, bright beneath.

440. **1836 Reeded Edge "Gobrecht" Half-Dollar** Scarcest coin in the series and usually missing from most collections. **Only 1200** of these were made, this offering being a piece which displays little wear, once was cleaned, still bright, and now should bring at least Extra Fine price. Redbook 2,000.00.

441. 1837 and 1838 Reeded edge Halves '37 a dark EF, '38 VF. Two decent pieces.

442. **1839** Reeded Edge Half Bright with some pretty toning above, some slight bagmarks, just about makes **BU-60** and looks nicer than that.

Thirteen coins to a lucky bidder!

BARBER HALVES

446. **1892 Stunning Choice Proof** with classic peripheral rainbow tone, one diagonal scratch behind the mouth and some light hairlines but definitely the kind of coin the most astute investors would like to put in their inventory.

447. **1893-O A Choice BU** piece with deep lavender color on the obverse and deep lustre throughout, fairly **well struck** for a New Orleans piece, this one has distinct clash-marks on obverse and reverse.
448. **1895-O** Just makes Extra Fine with some rainbow color around edges.

449. **1901 Brilliant Uncirculated** with brown-violet edge coloring. Light hairline evident on cheek keeping it Choice status, but no tread wear on the high points.

450. **1905 Better than Proof 60** but an unfortunate vertical hairline scratch present on "Liberty's" cheek, otherwise a nice example with the usual light hairlines present.

451. 1906-D Choice Extra Fine.

452. 1912-D Excellent lustre and a minimum of defects qualify this piece as **Choice Uncirculated**. Some roughness on devices due to strike but a high quality specimen nevertheless.

453. 1915-D Last year of the series which appears to be uncirculated but the most conservative graders might consider it a super slider. Full lustre and detail help make this a most desirable piece.

454. Circulated Collection of Barber Halves - Complete from 1898 to 1915 except 1914 with 9 additional early dates plus an additional 1915. Most of the keys missing. 63 coins mostly in VG condition, some better, some not. In addition 133 assorted Barbars of different dates in similar condition.

WALKING LIBERTY HALF DOLLARS

455. 1916 A **Beautiful** example of the first year for this popular series, satiny surfaces and beginnings of attractive color enhance this handsome specimen. Easily **BU 63**, possibly better.

456. 1920 Appears nicer than MS-60 but a few scattered obverse marks keep it from Choice classification, Gem reverse.

457. **1929-D** Nicer than the previous piece, making it **MS-63**.

458. **1933-S** Deep Lustre and good strike but some abrasions present, still much better than **MS-60**.
459. 1936-D Brilliant MS-63 and 1944 MS-60 lightly toned. Two coins.
460. 1941 Hazily-toned gem example with no discernible defect, only lacking in brilliance. In addition 1947-D approaching BU-63.
461. Three 1945 Walkers, BU-60.
462. Group of better date Walkers. 1921 and '21-S both at least Good, a pair of 1938-D VG & Fine, and 1917-P, AU 50.
463. **BU Roll of 1946 Walking Liberty Halves** - Average quality, some pieces toned.
464. Lot of 27 AU Walkers - Assorted dates and mintmarks mostly in the 1940's.
465. Roll of assorted BU, **FRANKLIN HALVES** 1948, 3 x 1949 (2 sliders), 1950, 5 x 1959 and remainders from 1960's. Worthy of inspection.

467. \$1.00 1851 VF, two digs at neck, 1851 EF and 1854 well-worn, both in rings, plus 1862, VF, holed and Type III monogrammed some combination of "BEW". Five piece lot.

468. \$2.50 Liberty, 1873 BU-60 or a bit better.

470. \$2.50 Liberty 1900, Extra Fine, slightly better date.

471. **Set of \$2.50 Indians** 15 coins 1908-1929 Mixed grades but looks well matched in its white holder. The important 1911-D is AU, as are most of the others. '09, '14, '14-D and 1928 all appear to have been lightly cleaned at some time. Still, a very flashy and attractive set.

472. \$10 Indian 1908, rather typical EF.

COMMEMORATIVE GOLD

473. **\$1.00 Pan-Pacific 1915-S BU-63** with strange crack through "PACIFIC" and what appears to be lamination through the date, all very minor.

474. **\$1.00 Lewis and Clark 1904 BU-60** with a few marks, not at all bad.

475. **\$1.00 Lewis and Clark 1905 Decent AU.**

476. **\$1.00 McKinley 1917 BU** but with three obverse pin-scratches, one in left field, two in portrait, not too bad.

477. **\$2.50 1926 Sesquicentennial BU-60** with a few light digs and scratches, hardly visible.

COMMEMORATIVE COINS

478. **Isabella Quarter** 1893 Technically Choice BU but seems to have been dipped. Some scattered hairlines but no detracting marks.

479. **Isabella Quarter** A second piece, superior to the previous lot. Tiny edge dent at 11:30 obverse, but deep lustre and good strike make this **Choice BU**.

480. **Lafayette Dollar** 1900 Choice Extra Fine due to old cleaning.

481. Another cleaned piece, this with hairlines evident.

482. A final Lafayette Dollar Better than the previous offering, close to BU-60.

- 491. Bay Bridge 1936-S Lustrous choice BU.

503. A pair of Cleveland-Great Lakes 1936, one slider UNC, the other frosty MS-60+.

504. **Columbia, South Carolina, 1936, P-D-S set Frosty and brilliant.** Despite a few extremely trivial marks, P and D easily qualify as **BU-65**. The S shows one mark above "Liberty" thus dropping it down to a 63.
505. Columbia 1936-P Type piece, a few contact marks on the tree side, else very nice, **BU-63**.
506. Columbus 1892 Lovely frosty piece, a few trivial faults but **BU-63** plus an 1893, a good match which just about makes 63 grade, plus another 1893 in EF.

507. **Connecticut 1935 Gorgeous flashy with wonderful mint lustre.** A couple of minor spots, a well-hidden contact mark in the wing are about all that can be reported. **BU-65**.

508. **Delaware 1938 Equally as beautiful as the above, flashy and oh, so original!** A couple of trivial marks on the sails and roof, but at **least BU-64**, perhaps better.
509. Elgin, Illinois 1936 Nice flashy **BU-60+**, pretty.
510. Elgin Another, perhaps just a shade nicer than above.

511. **Gettysburg 1936 Another flashy beauty, falls just a hairline short of true BU-65 status.**

512. Grant with Star Hard-to-find in very high grade. This lovely bright coin grades BU-63, very pretty.
513. Grant without star Bright and pretty, falling just short of BU-63, but nice.

514. Hawaii, 1928 A most beautiful and **high grade** coin, with just the beginning of toning atop. A few very trivial contact marks may be observed through a glass, really nice BU-63+.

515. Hudson 1935 Scarcer piece, nice, does not quite make a 63 but looks like one.
516. Huguenot-Walloon 1924 A bright and shiny pair, both of which seem to have been dipped, now choice AU.
517. Iowa 1946, Bright and flashy with just enough contact evidence to bring it down to BU-63.
518. Iowa Another, and just about as the above.
519. Lexington-Concord 1925 Nice, natural looking BU-63.
520. Another, this BU but too bright, once well-cleaned.
521. Lincoln-Illinois 1918 Bright and pretty, obverse just about makes BU-63, reverse almost faultless.
522. Another, bright and nice looking but only AU.
523. Long Island 1936 Nice-looking pair which close inspection reveals as having been dipped at one time. Still uncirculated.

524. Lynchburg, Virginia 1936, Decent BU-60.
525. Maine, 1920 Dipped AU, and Alabama, 1921, EF with tiny edge bang at 5 o'clock, obverse.
526. Maryland 1934 Bright uncirculated, once-dipped.

527. **Missouri 2 x 4**, 1921. Dipped once, not as bright as the above, still **Uncirculated**, semi-key piece.
528. Missouri Perfect companion for the above.
529. Monroe 1923 BU-60 and another in EF.

530. **New Rochelle 1938 Beautiful** natural coin, lovely mint lustre with a few scattered contact marks, choice BU.

531. **Norfolk 1936 Beautiful** creamy coin, meets every criterion of a **BU-65**, with practically no faults noticeable!
532. **Norfolk** Another, a bit beneath the above, one tiny dig in sails, another on reverse being all that shows.
533. Oregon 1926 BU-63 but once-dipped, bright and attractive.

- 534. Another This BU-60, and dipped as above.
- 535. Another, as the two above but closer to BU-63.

- 542. **Oregon** 1938 P-D-S set, with the "D" at least a 63, the "S" just about a 63, and the "P" a 63 with a tiny reverse edge ding.
- 543. **1939 P-D-S** A gorgeous bright BU set which is not as nice as it looks to the naked eye. Well cleaned, it truly sparkles enough to hide all its faults, even though these are all trivial.

- 544. Panama-Pacific 1915-S No wear apparent but, like some others in this collection, dipped once.
- 545. Pilgrim 1920 and 1921 Both BU-60 with a suggestion of having been cleaned, not obviously.
- 546. Pilgrim 1920 A nice bright BU-63 coin.
- 547. **Rhode Island** P-D-S Set 1936 Nice looking set barely better than 60 but looks like a higher grade. Pretty coins.
- 548. Rhode Island 1936-S Just a BU-60, nice for type.

- 549. Roanoke 1937 Bright and natural, a very pretty BU-63.

- 550. Roanoke Another, just a shade below the preceding coin, still very pretty.
- 551. Robinson-Arkansas 1936 Nice, very lightly toned BU-60 + + with just minimal abrasion on the cheeks.
- 552. Another, similar to above, but this has been dipped.
- 553. San Diego 1935-S and 1936-D Two nice pieces, slightly golden and better than BU-60, plus another 1935-S, brighter than the others, equally as nice, but probably once dipped.
- 554. Sesquicentennial 1926 Two bright Uncirculated pieces, both showing evidence of light dipping.

- 555. **Spanish Trail 1935** Nice **BU-63** piece, the barest hint of gold toning, very handsome.
- 556. **Spanish Trail** Another pretty coin, not quite as nice as the above, but still beautiful in its own right.
- 557. **Stone Mountain 1925** Two nice BU pieces approaching 63, one a bit brighter than the other.

- 558. **Texas 1934** Lovely bright coin, with a few very trivial faults, probably would still make 65, we call it 64.
- 559. **Texas 1935 P-D-S Set** Beautifully matched in subdued gold, the P is the nicest, but all three are clearly at least BU-63.
- 560. **Texas 1936 P-D-S Set** A perfect match for the above, however the D has just a few more faults than the others, call it BU-60 +.
- 561. **Texas 1937 P-D-S Set** P and S are lovely 65's with the D coin a point or so beneath. **A superior set!**
- 562. **Texas 1938 P-D-S Set** A lovely trio with no apparent faults same a slight uneven lustre to them, just enough to keep them from a BU-65 rating. We're rating them **BU-64**.
- 563. **Ft. Vancouver 1925** Nice golden color, no outstanding faults but considerably hairlined at second glance.
- 564. Another, but polished to dazzling brightness. Shows really no wear under the glitz!
- 565. **Vermont, Ira Allen 1927** BU-60, or a little better, some hairlining, etc. but overall nice looking.
- 566. Another, almost identical.

- 567. Booker T. Washington 1946 Set of 4 P-P-D-S, BU-60-63, and 1947 P-D-S set BU-60-63.
- 568. Same, but 1948 P-D-S. BU 60-63.
- 569. 1949 B.T.W. set P-D-S Same BU 60-63, and 1950 B.T.W. P-D-S set, same condition.
- 570. 1951 B.T.W. set P-D-S, BU 60-63.
- 571. Washington-Carver P-D-S sets 1951, 1952 (extra P) 1953, 1954, all BU 60-63, nice group.

- 572. Wisconsin 1936 Lovely bright BU-64.
- 573. Wisconsin Twin coin to the above, also BU-64.

- 574. York County 1936 Nice bright BU-63.
- 575. York County 1936. Twin BU-63 to the above.

- 590. 1873 Would make EF save for edge bump at 3 o'clock, obverse.
- 591. 1841 EF, small hole at top; 1846, 1/4" hole at left wrist, coin a bit out of round there, and 1849 abt EF, 1/4" hole at 13th star.

- 596. 1877 (almost EF-cleaned) 1878-S (same) 1878-S, 1878-CC, both abt. VF and cleaned plus another 1878 (VF) and 1877 (VF) 6 coins.

MORGAN DOLLARS

- 597. 1878-8TF, 7/8TF, 7TF, S and CC, all peripherally toned, all falling between BU 60-63 except the CC, which is a BU-60. Five coins.

- 600. 1881 Just as above, all four mints, all better than BU-60, 1881-S is at least BU-63.

- 601. 1882 Four mints. S and CC straight BU-60, others a bit nice, four coins.
- 602. 1883 "S" is a slider, P is a 60, CC and O are BU-60+, 4 coins.
- 603. 1884 P, O and CC all BU-60, the 1884-S is EF.

- 612. **1892-S** Always in demand. This piece grades super EF but looks a lot better.

- 613. **1892-CC** Really nice, **BU-63**, light peripheral toning, semi-P/L. Lovely, original and flashy.
- 614. 1893 EF, but looks better.
- 615. **1893-O** Rev. is BU-60, obv. looks Unc. but may have been lightly cleaned once, now starting to tone.

IMPORTANT NOTICE

616. **1893-CC** Clearly a **BU-60** with some slight pretense to a higher rating. Semi-P/L, light edge toning, pretty.

617. **1893-P** Hard-to-find in higher grades, this offering a nice **BU-60**.
 618. 1894 Just a pretty EF coin, with a little toning.
 619. 1894-O and 1894-S Both very close to Uncirculated but fall just short in our opinion.

620. **1895-O** Just misses Uncirculated grade by a hair, nice looking. Should bring a premium over **AU** price.
 621. **1895-S** Deeply rainbow-toned, and looks nicer than the **Choice EF** grade we are calling it.
 622. 1896 **BU-63**, 1896-O **EF**, and 1896-S **EF**. Three coin lot.
 623. 1897-P (**BU**), 1897-O (**AU**), 1898-O (**EF**), 1898-S (**EF**), 1899 (Key-**EF**), 1899-O (**AU**), and 1898 (**BU**). Seven nice coins.
 624. 1897-S Semi-P/L, lovely **BU-63**.
 625. 1899-S Nice looking and just makes **BU-60**.

626. 1900-P Weakly struck but probably BU-60, 1900-O, weak too, but clearly BU-60 and 1900-S, the key, this BU-60. 3 coins.
627. **1901-P** A key coin, looks BU but we call it AU.

628. **1901-S** Semi-key date, bright and flashy BU-60.
629. 1902-P, 1902-O both BU-63, and 1902-S, toned "slider."

AN ITALIAN COLLECTION

The following coins were put together over the course of many years in an attempt to show the complete spectrum of Italian numismatics. Many of the coins are scarce, and difficult to find today, and, if some of the grades could be a bit higher, many cannot be found better. This is a collection, not an investment and because of the vast number of pieces, only the sketchiest of description is possible. The pieces have been laid out in books, making them easy to view, a procedure we would highly recommend for anyone interested.
